

REEL PRINTING AND PUNCHING MACHINE

India's first
machine of its kind

Paper Punching Machine

Punching machine that can die cut paper cup blank inline automatically

Model: BPP - FAM V1.2

Features

- Fully automated
- High speed die cutting
- PLC Controlled with AC Servo integration
- High precision control for ultra low wastage
- Easy to operate
- Low maintenance design
- Eye mark sensor included

Technical Specifications

- Maximum reel width: 1100mm
- Maximum reel diameter: 1600mm
- Paper thickness: 170GSM - 350GSM
- Capacity: Max. 280 strokes per min
- Power Supply: 120V, 1P to 480V, 3P (Wide Operating Voltage)
- Power: 4KVA

BPP - FAM V1.2 is a PLC controlled punching machine that can cut paper and board used for paper cups, cake boxes, paper plates, paper cones and packing boxes. The machine also has a optional flexo printing attachment for cutting edge printing and punching in a single application.

Micro Gap Cutting Machine

Punching machine for paper cup manufacturers

Features

- High speed die cutting
- Microcontroller based
- High precision control for ultra low wastage
- Stepper motor integrated
- Eye mark sensor included
- Reduced die cost

BPP - MGCV1.0

Micro gap cutting machine is used for cutting paper cup skilllets. Commonly available die set is used to reduce complexity.

About Us

Balaji Paper Products welcomes you to the world of printing and punching excellence. A decade of experience and the vision towards creating a niche has transformed Balaji paper products into India's first company to manufacture reel printing and punching machines.

The company is very well equipped with the latest infrastructure & equipments. State-of-the-art technology, regular quality checks and a team of skilled personnel dedicated to customer satisfaction ensure that our products are of premium quality. A well-facilitated design and R&D department, which uses latest drawing and Analysis software, enables a continuous study of the customer feedback and related technology to make the necessary upgradations. Our machines are well favoured by customers due to easy operation, perfect performance, easy maintenance good and prompt after sale service.
